## Tough Times Savings Tips

For many people, setting aside funds is never easy. So when times are tough, it may seem almost impossible to save. But instead of adding to your credit card debt for the things you want or need, try saving for them instead. Here are three tips to get you started:

1. Use payroll deduction or automatic transfer to set aside money every month. It's true: what you don't see, you won't miss. You may be surprised how quickly even small amounts add up.
2. Save your change. Empty your pockets every day into a small jar or basket. Once it's full, roll the coins and bring it to the Credit Union to deposit into your account.
3. Give up an expensive habit, like smoking cigarettes or drinking lattes. Earmark the money saved for a special treat, such as a vacation trip or a new wardrobe; save your funds in a special account at the Credit Union until you've reached your goal. Then start again for something new.
